[Nevo Butler](#) is a highly secured, voice-enabled, white label hub that blends entertainment and smart home control experiences for various applications. With far-field voice control and interoperability with a variety of ecosystems, Nevo Butler allows users to discover and control virtually all entertainment devices in the home using hands-free voice, including set-top boxes and TVs, as well as security systems, lighting, thermostats and more.

Nevo Butler offers a minimalistic, unobtrusive design ideal for placement on stands and side tables. Its infrared translucent top lens enables 360-degree control of the TV, set-top box and other devices with feedback lights under the lens that are visible from standing and seated positions. Available in white or charcoal with a rubber mat in branded accent colors, Nevo Butler allows flexible customization and easy refurbishment.

Nevo Butler was designed by UEI's [Designovation](#) team which creates product designs based on user insights and global trends.

Universal Electronics Inc. (UEI) (NASDAQ: UEIC), the global leader in wireless universal control solutions for home entertainment and smart home devices, has received a Red Dot Award, one of the most prestigious international design awards, in the Product Design category for its Nevo® Butler entertainment and smart home hub. "Winning this award is a true honor and speaks to our team's creativity and talent," said Rex Xu, Director of Design and User Experience at UEI who leads the global Designovation team. "Like all of our

products, Nevo Butler was designed with the user experience in mind to provide a product that is easy to use, functional and aesthetically pleasing in a variety of environments."

In recent years, UEI has received several Red Dot Awards for a range of products from remote controls to audio video accessories. The Red Dot is established internationally as one of the most sought-after quality marks for outstanding design with annual competitions for Product Design, Brands and Communication, and Design Concept. Red Dot Award submissions are evaluated by a jury of independent designers, design professors and journalists.
