UNIVERSAL ELECTRONICS REPORTS SECOND QUARTER 2008 FINANCIAL RESULTS — Posts Sales of \$70.7 Million and Net Income of \$3.5 Million —

CYPRESS, CA — August 7, 2008 — Universal Electronics Inc. (UEI), (NASDAQ: UEIC) announced financial results for the second quarter and six months ended June 30, 2008.

"During the quarter, we continued to consistently execute our strategy and delivered revenue of \$70.7 million and EPS of \$0.24," stated Paul Arling, UEI's Chairman and CEO. "Our customer wins and new products, coupled with our strong existing business, are on track to generate record results with revenue expected to grow between 12% and 16% compared to 2007. This quarter, we secured additional customers including Onkyo Corporation and Audiovox Accessories Corporation."

"In addition, we introduced the Delta; a universal remote control that powers digital-to-analog (DTA) converters. In fact, it is scheduled to ship to major settop manufacturers for deployment with subscription broadcasters in the fall of 2008, which we expect to generate substantial revenue in the fourth quarter of 2008. Also, at IFA, the world's largest consumer electronics show in Germany in September, we intend to launch products that offer a new consumer friendly feature of both on-device and web-based set up for unparalleled convenience in remote control technology. These are a few examples demonstrating how our technology solutions drive growth by providing wireless control products for the worldwide movement toward digital home entertainment technologies," concluded Arling.
