The company will no longer exclude excess manufacturing overhead costs resulting from the continued transition of its global manufacturing footprint, specifically in Mexico and Vietnam, and depreciation related to the mark-up from cost to fair value of fixed assets acquired in business combinations from its Adjusted Non-GAAP figures. This impacts Adjusted Non-GAAP gross profit, gross margin, operating income (loss), income (loss) before provision (benefit) from income taxes and net income (loss) in the quarterly results for 2023 and 2024. There is no impact to GAAP results.
