## **Universal Electronics Reports Financial Results for the Second Quarter 2021**

SCOTTSDALE, AZ – August 5, 2021 – Universal Electronics Inc. (UEI) (NASDAQ: UEIC) reported financial results for the three and six months ended June 30, 2021.

"As we look towards the second half of 2021, we are beginning to see increased demand, which bodes well for our business," said Paul Arling, UEI's chairman and CEO. "We are seeing renewed strength in orders for the back half of 2021 on existing platforms and increased adoption of our Apple TV remote for multichannel video programming distributors across the world. We have started shipping launch quantities to our initial MVPD customers with additional launches planned later in 2021 as well as 2022. Nevo Butler, our white-label voice-enabled smart home and entertainment control hub, is in a field trial with a major European telco. However, due to semiconductor component shortages and some logistical challenges in the second quarter, we were unable to fulfill all our orders. Despite these temporal challenges, our continued focus on technology innovation, strong customer relations, and operational excellence expanded our operating profit and delivered a record second quarter EPS.

"Our ongoing commitment to innovation continues to broaden our use cases and diversify our potential customer base. We have led wireless device control for decades overcoming numerous macro-economic conditions be it component shortages, tariffs or pandemics. UEI is resilient and innovative. We set technology trends and standards. We expect to continue to lead the industry for decades to come."

#### **Use of Non-GAAP Financial Metrics**

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, UEI provides Adjusted Non-GAAP information as additional information for its operating results. References to Adjusted Non-GAAP information are to non-GAAP financial measures. These measures are not required by, in accordance with, or an alternative for, GAAP and may be different from non-GAAP financial measures used by other companies. UEI's management uses these measures for reviewing the financial results of UEI for budget planning purposes and for making operational and financial decisions. Management believes that providing these non-GAAP financial measures to investors, as a supplement to GAAP financial measures, help investors evaluate UEI's core operating and financial performance and business trends consistent with how management evaluates such performance and trends. Additionally, management believes these measures facilitate comparisons with the core operating and financial results and business trends of competitors and other companies.

Adjusted Non-GAAP net sales is defined as net sales excluding the revenue impact of stock-based compensation for performance-based warrants. Adjusted Non-GAAP gross profit is defined as gross profit excluding the impact of additional Section 301 U.S. tariffs on products manufactured in China and imported into the U.S., excess manufacturing overhead costs, including those related to the COVID-19 pandemic, factory transition costs, loss on the sale of our Ohio call center, gain on the release from our Ohio call center lease obligation guarantee, stock-based compensation expense, depreciation expense related to the increase in fixed assets from cost to fair market value resulting from acquisitions and employee related restructuring costs. Adjusted Non-GAAP operating expenses are defined as operating expenses excluding stock-based compensation expense, amortization of intangibles acquired, changes in contingent consideration related to acquisitions, costs associated with our International Trade Commission litigation efforts, and employee related restructuring and other costs. Adjusted Non-GAAP net income is defined as net income excluding the aforementioned items, the reversal of a social insurance accrual related to our Guangzhou entity, which was sold in 2018. Adjusted Non-GAAP diluted earnings per share is calculated using Adjusted Non-GAAP net income. A reconciliation of these financial measures to the most directly comparable GAAP financial measures is included at the end of this press release.

This press release and accompanying schedules contain "forward-looking statements" within the meaning of federal securities laws, including net sales, profit margin and earnings trends, estimates and assumptions; our expectations about new product introductions; and similar statements concerning anticipated future events and expectations that are not historical facts. We caution you that these statements are not guarantees of future performance and are subject to numerous risks and uncertainties, including those we identify below and other risk factors that we identify in our most recent annual report on Form 10-K for the year ended December 31, 2020, and quarterly and periodic reports we have filed with the Securities Exchange Commission (the "SEC") since then. Risks that could affect forward-looking statements in this press release include: the acceptance of and demand for the various advanced control products and technologies, including our Apple TV remote control and Nevo Butler products, technologies, and platforms; our ability to continue anticipating the needs and wants of our customers, and timely develop and deliver products and technologies that will be accepted by our customers; the continued commitment of our customers to their product development strategies that translate into greater demand for our technologies and products as anticipated by management; the continued ordering pattern of our customers as anticipated by management; management's ability to manage its business to achieve its net sales, margins, and earnings through its operating efficiencies, product mix, and gross margin improvement initiatives as guided and as anticipated; our ability to enhance and protect the value of our intellectual properties, including our patents and trade secrets, through our licensing and litigation efforts; interruptions in our supply and logistics chains; the effects that natural disasters and public health crises, including the COVID-19 pandemic, have on our business and management's ability to anticipate and mitigate those effects, including the duration, severity and scope of the COVID-19 pandemic, and the actions and restrictions that may be imposed on us and our operations by federal, state, local and international public health and governmental authorities to contain and combat the outbreak and spread of COVID-19, each of which may exacerbate one or more of the aforementioned risks; and uncertainties and other factors more fully described in our reports filed with the SEC; and effects that changes in laws, regulations and policies may have on our business including the impact of trade regulations pertaining to importation of our products and the tariffs imposed upon them. Since it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results, the above list should not be considered a complete list. Further, any of these factors could cause actual results to differ materially from the expectations we express or imply in this press release.
